Project Process

A simple workflow for collecting details, designing, reviewing and delivering the final files.

01

Requirement Collection

Client shares logo, business details, services, images, colors and preferred style.

02

Design Direction

We plan layout, content flow, CTA placement, sections and overall visual style.

03

Design & Development

Website or poster is created with responsive layout and premium visual treatment.

04

Review & Corrections

Client reviews the first version and requested changes are completed.

05

Final Delivery

Final website link or poster files are delivered in the agreed format.

Note

Prices may vary based on extra pages, custom animations, domain, advanced forms, backend, source files or urgent delivery.

Why Choose Skill_hub
